Rio Grande City EDC Lunch & Learn: Data Protection & Online Security

Rio Grande City, Texas (December 13, 2016) — The Rio Grande City EDC held an informative Lunch & Learn workshop at the Commissioner's Chambers at City Hall. Guest speaker, Adam Pearson, Senior Vice President Information Security Officer of Lone Star National Bank presented information on data protection and online security.

"The biggest threat to online security is the human factor. An online security breach at the hands of a hacker can expose a small business owner to significant financial loss," said Mr. Pearson.

The workshop covered a wide range of topics such as: common methods used to breach through website security; how to avoid being of victim of many types of email scams; and the importance of having a good anti-virus program for your computer and smart phone.

The Rio Grande City EDC, in partnership with the UTRGV Small Business Development Center, offers business education workshops and seminars. This year, the Rio Grande City EDC has initiated a Business Education Passport program. Rio Grande City business owners and/or their employees that attend a total of 10 Rio Grande City EDC Lunch & Learn workshops and UTRGV SBDC seminars for the year will be entered for a chance to win a Samsung Galaxy tablet.

For more information on upcoming Rio Grande City EDC and UTRGV SBDC events, follow us on Facebook or visit www.rgcedc.org and sign up for the Rio Grande City EDC newsletter.
